Bluetooth dongle driver unavailbale (Win10)

2019/08/31

I recently purchased a bluetooth adapter dongle so that I can use my wireless earbuds and headphones with my computer. I plugged the dongle in, and the device is listed as "H100i v2" under the device manager. The device is connected, but it doesn't work because Windows can't find any drivers for it. Any help with this is greatly appreciated.
